## 9. DISCLOSURES

### a) "MATEK"

Some parts (but not all) of the trail, the campsite, and its surroundings are home to the endemic leeches locally known as "matek".

Some common ways to avoid matek bites are:

1. Use the appropriate apparels – long pants and rubber boots or shoes. Rubber boots can also help in traversing the mountainous terrain easier.
2. Equip yourself with a bottle of alcohol or bag of salt. Salt can also be used as treats for the cows along the way.

## BADOL CAMPING GROUNDS

Facebook Page: <https://www.facebook.com/BadolCamping/>

Clients especially those with Bdellophobia (fear of leeches) or Hemophobia (fear of blood) should put this into consideration before engaging in this campsite activity.

### b) HEIGHTS

Some parts of the trail and some parts of the campsite are located along mountainsides or precipice/cliffs with significant heights. The campsite will provide administrative controls such as barriers and signages for your safety.

Clients especially with Acrophobia (fear of heights) should put this into consideration before engaging in this campsite activity.

Waivers to be signed before engaging in this activity.

### c) ROAD TO KAPANGAN

The road is winding with numerous zig-zags and ups and downs. Take appropriate precautions to anticipate nausea/car sickness.

### d) ROCKY/GRASSY/HARD COMPACTED SOIL TRAILS

From drop off to the campsite, the trail consists of the following combination of trails. First, clients will encounter a relatively rocky trail. Then the trail will transition into hard compacted soil and grassy terrain. During the wet season, the hard compacted trail could become slippery due to moss growth. Also, "matek" encounters could increase in grassy terrain during the wet season.

### e) CREEK ENCOUNTER

Whatever you bring to the creek, expect it to get wet. Know your swimming skills and limitations. Remember that swimming in creeks can be different when swimming in the sea or in a swimming pool primarily because of currents.

### f) WATER

The water supplied to the campsite is mineral spring water coming directly from the water source 1km away on the same mountain. Residents usually drink the water directly coming from the source. Persons with sensitivity to water should take note of this.

### g) ELECTRICITY

Your gadgets' lifespan is as good as its battery. In other words, the place has limited electricity.

### h) SLEEPWALKING

Campsite is located near a precipice/cliff. Sleepwalkers should properly declare this in the waiver.

### i) TEMPERATURE

#### COLD NIGHTS

The campsite is located at the same elevation of Baguio City and has the same or even lesser temperature. Clients should be aware of this and equip themselves appropriately to avoid hypothermia.

#### HOT MIDDAYS (especially on the trails)

The trails going up to the campsite are open spaces at the mountainside and are generally facing the morning sun. Clients/hikers will be exposed to the open sun from sunrise up to early afternoon. Clients should be aware of this and equip themselves appropriately to avoid heat exhaustion. Lots of water intake is advised.

### j) RAINS and THUNDERSTORMS

Rain and thunderstorms may occur in the afternoon even during non-rainy seasons. Clients should properly be equipped with the appropriate rain gears.

## BADOL CAMPING GROUNDS

Facebook Page: <https://www.facebook.com/BadolCamping/>

### k) NEAREST SITIO/BARRIO

The nearest sitio or barrio with stores is 6km away from the campsite. As much as possible, bring everything you need for the hike and camp.

### l) PRICES

Prices indicated may change anytime. They may be affected by season or by holidays.

### m) SUSPENSIONS OF TOURISM ACTIVITIES

The campsite adheres to all memorandum, notices and/or declaration of suspension of tourism activities declared by the Local Government Unit, Provincial Unit, or any other Government agencies such as DOT and DENR. Any declarations made prior to the hiking and/or camping activity will automatically be cancelled.

## 10. DO's and DON'Ts

VIOLATIONS COULD LEAD TO EVICTION FROM ANY PART OF THE TRAIL AND/OR THE CAMPSITE. ANY DAMAGES TO LOCAL PROPERTIES, WILDLIFE, AND/OR RESIDENTS COULD BE GROUNDS FOR APPROPRIATE CHARGES.

### DON'Ts

- NO SMOKING – The Campsite is located in a forested area with high risk of forest fire
- NO to unruly behavior and horseplaying
- NO HUNTING of animals and wildlife
- NO unauthorized picking or uprooting of plants and fauna
- NO separating from the main group and tour guides

### DOs

- Keep yourself SAFE at all times
- Honestly declare your medical conditions
- If you have any medical conditions, bring your own medication
- Use a buddy-buddy system along the trail
- Always keep in touch with your tour guides.
- Respect the locals, their culture, way of living and their hometown
- Keep the place CLEAN and GREEN
- Dispose your trash properly – Clean as you go
- Enjoy your staycation

Leave nothing but footprints. Take nothing but pictures. Kill nothing but time.
